**WHAT IS TELECOM MARKETING?**

The accessibility of Mobile Phones is very usual these days and the usage of Mobile is increased among adults by 5 % in last three years, Telecom Marketing is all about getting connected with your audience at right time in right place. The place i.e. Mobile Phone is the platforms where an individual spent his hours. Telecom marketing encompasses all marketing efforts through Mobile and sending the right messages/Calls/Media Messages/Alerts etc. to an individual. As the gadget is now an essential need on the contrary it is also meeting the individual marketing objective

## **SERVICES WE OFFER:**

### **Bulk-SMS**

Stew-India provides the exclusive Premium Bulk SMS Service by which you can promote/convey information to your target audience in the form of Message on their Mobile Phones in Seconds. Send a generic message to all recipients or custom message to each recipient based on a template. With our scalable and robust interface, you can send thousands of SMS messages per second based on your business needs. Schedule messages to go at a particular date & time, or setup recurring campaigns.

### **Bulk WhatsApp-Official**

Stew-India provide official solutions related to **WhatsApp Marketing and WhatsApp API's** In world there are 2.78 Billion user's and every business is now targeting WhatsApp channel to promote their brands hence we help business enterprises to onboard on official WhatsApp through Facebook accounts and also provide API solution which can be easily integrated into their own applications, systems, or customer communication workflows. The API enables businesses to send messages, receive messages, and interact with users on the WhatsApp platform programmatically.

### **Bulk Voice Calls**

Stew-India also serves the Facility of Premium voice call services where every target audience will get a call from your Phone number or our number. Your Pre-recorded voice will be sent on their Phone. Record message in your own/Professional voice convert text to speech or upload a clip and transmit immediately as phone calls to your group. You can also set the number of times the call is to be retried or set up an expiry time for the call.

### **Bulk Emails**

Stew-India serves the facility of sending your Marketing Messages, Newsletter, Updates, Coupons, and invitations typically comprise Bulk emails to your target audience in seconds without any limitations of receiver.

### **Missed call services**

Stew-India helps to generate leads from your ads, Sign-up users for your loyalty program, live event polls etc using a missed call number. Follow the missed call with a SMS or a call from your sales team. Responses for a missed call number are 10 times more as compared to a regular phone number. Especially for the consumers who are not present on the internet and helps in collecting feedback.

### **Kanri-Telephony CRM**

Stew-India provides you one integrated web based solution CRM where you can manage your **enquiries, Prospect and Customer's** at one platform in pipeline view and through this panel itself you can send communications like SMS, WhatsApp, Voice Calls, and email which will help your organization in forecasting sales and will also help sales team to strategize the business revenue model. The Dynamic dashboard gives Manager a single stop view to analyse the business status and can plan the growth model accordingly.

### **Chatbots and automation**

WhatsApp API integration enables businesses to deploy chatbots or automated messaging systems to handle common customer inquiries, gather information, or provide interactive experiences.

### **Business Softwares**

Stew-India provides you India's First Unicode Based-GST Ready Business ERP Software which alone supports in 100+ Business's like it can be easily used in Supermarkets, Mobile Shops / Computers / Electronics / FMCG Dealers, Retailers / Wholesalers / Manufacturers, Automobile / Spare Parts / Book Shops etc. enabled with **SMS** and **WhatsApp** integrations.
